

## Vermont's Approved Providers of Supplemental Educational Services (Updated 12/8/06)

The No Child Left Behind Act requires that a supervisory union/district provide for tutoring services outside the regular school day for eligible students attending Title I identified schools. It also requires that the parents of eligible students be allowed to choose a service provider. This list contains the names of providers that have been approved and that are available to serve students from the Title I identified schools.

For more information about any of the providers or for eligibility criteria for services, parents in an identified school should contact their local school or supervisory union/district office. Available information includes session length, start and end dates, curricula and methods used, evidence of effectiveness and reports to parents.
